

PRELIMINARY SCIENTIFIC PROGRAM

Thursday, September 25th, 2008

15.00-18.30 Registration

16.30-17.00 Welcome Address

17.00-18.30 **SYMPOSIUM 1 "MULTIPLE TUMORS AND THE PITUITARY"**

Epigenetics and pituitary tumorigenesis

W. Farrell

The clinical spectrum of pituitary disease
in multiple tumor syndromes

A. Spada

The Aryl Hydrocarbon Receptor Interacting Protein (AIP1)
gene and endocrine tumorigenesis

L. Aaltonen

Familial pituitary tumor involving the Aryl Hydrocarbon
Receptor Interacting Protein (AIP1)

A. Beckers

18.30-19.15 **PLENARY LECTURE**

TBA

20.00-22.00 Welcome Reception

Friday, September 26th, 2008

- 8.30-9.30** **PARALLEL MEET-THE-EXPERT SESSIONS**
Genetic counseling for MEN1 and MEN2
M-L. Brandi
Ongoing clinical trials
R. Gagel
- 9.30-11.00** **SYMPOSIUM 2:**
MULTIPLE TUMOR SYNDROMES AND THE THYROID
RET and non-RET mutations in thyroid cancer
M. Santoro
Molecularly targeted therapies of MTC
S. Wells
Genotype-phenotype correlation - Results
of collaborative group studies
F. Raue
Management of MTC
M. Schlumberger
- 11.00-11.30** C o f f e e B r e a k
- 11.30-13.00** **SYMPOSIUM 3:**
PARATHYROID DISEASE AND MULTIPLE NEOPLASIA
Parafibromin - functional properties
R. Thakker
Parathyroid tumorigenesis
A. Arnold
P27 kip1 gene - a new (rare) MEN1 gene?
N. Pellegata
Parathyroid surgery
F. Tonelli
- 13.00-13.45** **PLENARY LECTURE**
Medical treatment of hypercalcemia
S. Papapoulos
- 13.45-15.00** L u n c h b r e a k a n d p o s t e r v i e w i n g
- 15.00-16.00** Hot topics/oral presentations selected from
submitted abstracts

16.00-17.30

**SYMPOSIUM 4:
PANCREAS AND SYNDROMES**

Syndromic hypoglycemia and pancreatic neoplasms

B. Erickson

Diagnosis and treatment of gastrinomas in MEN-1 patients

U. Plöckinger

Medical treatment of pancreatic endocrine tumors

W. De Herder

Pancreatic tumors: Animal models

S. K. Libutti

17.30-18.00

C o f f e e B r e a k

18.00-19.30

**SYMPOSIUM 5:
ADRENAL NEOPLASMS AND GENETIC SYNDROMES**

Molecular processes in adrenal tumorigenesis

G. Hammer

Carney complex

L.S. Kirschner

The gonadal connection in adrenal tumorigenesis

I. Huhtaniemi

Genetics of sporadic adrenocortical tumors

J. Bertherat

19.30-21.00

SATELLITE MEETING

21.30

Folklore Dinner

Saturday, September 27th, 2008

- 8.30-9.00** **PARALLEL MEET - THE - EXPERT SESSIONS**
Identifying a syndrome
A. Carney
Mechanisms of tumorigenesis by germline oncogene mutations: The Ras paradigm
J. Fagin
- 9.00-10.30** **SYMPOSIUM 6:
PHEOCHROMOCYTOMAS,
PARAGANGLIOMAS AND RELATED SYNDROMES**
SDH mutations in tumorigenesis and inherited Endocrine Tumors
B. Pasini
Inherited paragangliomas, gastrointestinal tumors and related syndromes
C. Stratakis
Familial pheochromocytomas
H.P. Neumann
Clinical diagnosis of pheochromocytomas
K. Pacak
- 10.30-11.00** C o f f e e b r e a k
- 11.00-12.15** Oral presentation of selected abstracts
- 12.15-13.00** **PLENARY SESSION**
Menin: mechanisms of action
S. Marx
- 13.00-14.30** L u n c h b r e a k a n d p o s t e r v i e w i n g
- 14.30-16.00** **SYMPOSIUM 7:
SURGICAL THERAPIES**
Optimizing time and extent of prophylactic surgery in hereditary MTC
H. Dralle
Laparoscopic abdominal surgery of the endocrine tumors
D. Linos
Preclinical treatment in MEN1
B. Skogseid
- 16.00-16.30** C o f f e e B r e a k
- 16.30-18.00** **SYMPOSIUM 8:
GONADS AND MULTIPLE SYNDROMES**
Genetics of testicular tumors
M. Greene
Reproductive disturbances in multiple neuroendocrine tumor syndromes
G. Tolis, A. Lytras
Ovarian Cancer
(TBA)
- 18.15-18.30** **CLOSING REMARKS**
- 18.30-19.30** **SATELLITE MEETING**
